Ohio Department of Health Internship Employment Opportunities 2026

Description

The Ohio Department of Health is offering internship opportunities for individuals passionate about public health and eager to contribute to the well-being of the community. As an intern, you will have the unique chance to work on meaningful projects and gain valuable experience in various areas of public health.

Responsibilities

- Assist in research and analysis of public health data to support decision-making processes.
- Contribute to the planning and execution of public health programs and initiatives.
- Collaborate with departmental teams on projects related to disease prevention, health promotion, and emergency preparedness.
- Support the development of educational materials for public health awareness campaigns.
- Participate in meetings, workshops, and training sessions to enhance knowledge of public health practices.
- Assist in the coordination of community outreach events and health fairs.
- Conduct literature reviews and compile information on best practices in public health.

Qualifications

- Currently enrolled in an undergraduate or graduate program with a focus on public health, epidemiology, health administration, or a related field.
- Strong academic record and a genuine interest in public health issues.
- Excellent written and verbal communication skills.
- Proficient in Microsoft Office Suite.
- Ability to work independently and collaboratively within a team.
- Detail-oriented with strong organizational and multitasking abilities.
- Demonstrated commitment to community service and public health.

Experience

Previous coursework or experience in public health, community health, or a related field is preferred but not required.

Skills

- Analytical skills for data interpretation and research.
- Strong interpersonal skills and the ability to work with diverse populations.
- Time management skills with the ability to meet deadlines.
- Adaptability and willingness to learn in a dynamic public health environment.
- Knowledge of public health principles and practices is beneficial.
