Southwestern Electric Power Company Internship Program 2026

Description

Join the Southwestern Electric Power Company (SWEPCO) Internship Program in 2026 and be a part of a dynamic team in the energy sector. This internship provides students with the opportunity to gain hands-on experience, contribute to impactful projects, and develop skills essential for a successful career in the electric power industry.

Responsibilities

1. **Operational Support:** Assist in various operational activities, gaining exposure to the generation, transmission, and distribution of electric power.
2. **Project Management:** Contribute to projects related to energy efficiency, renewable energy initiatives, and grid reliability.
3. **Data Analysis:** Engage in data analysis activities, supporting evidence-based decision-making processes within the energy sector.
4. **Collaboration:** Work closely with professionals in different departments, participating in cross-functional teams and supporting SWEPCO's mission.

Qualifications

- Currently enrolled as a full-time undergraduate or graduate student in an accredited program in electrical engineering, energy systems, business administration, or a related field.
- Strong academic performance with a minimum GPA of 3.0.

Experience

- Previous coursework or internship experience in the energy industry or a related field is advantageous.
- Familiarity with electric power systems, renewable energy, and energy policy is a plus.

Skills

1. **Communication:** Excellent written and verbal communication skills.
2. **Analytical Skills:** Strong analytical and critical thinking abilities.
3. **Teamwork:** Ability to collaborate effectively with diverse teams in the energy sector.
4. **Adaptability:** Flexibility to navigate various tasks and responsibilities within the dynamic field of electric power.

Job Benefits

- **Energy Industry Exposure:** Gain insights into the operations of a leading electric power company.
- **Learning Opportunities:** Access to training sessions, workshops, and exposure to cutting-edge technologies in the energy sector.
